

LET'S CLEAN UP THE CITY!

NEWER, FASTER, BETTER

Bulk collection is once per month. All other services are weekly.

We're on the way, be ready when we get there!

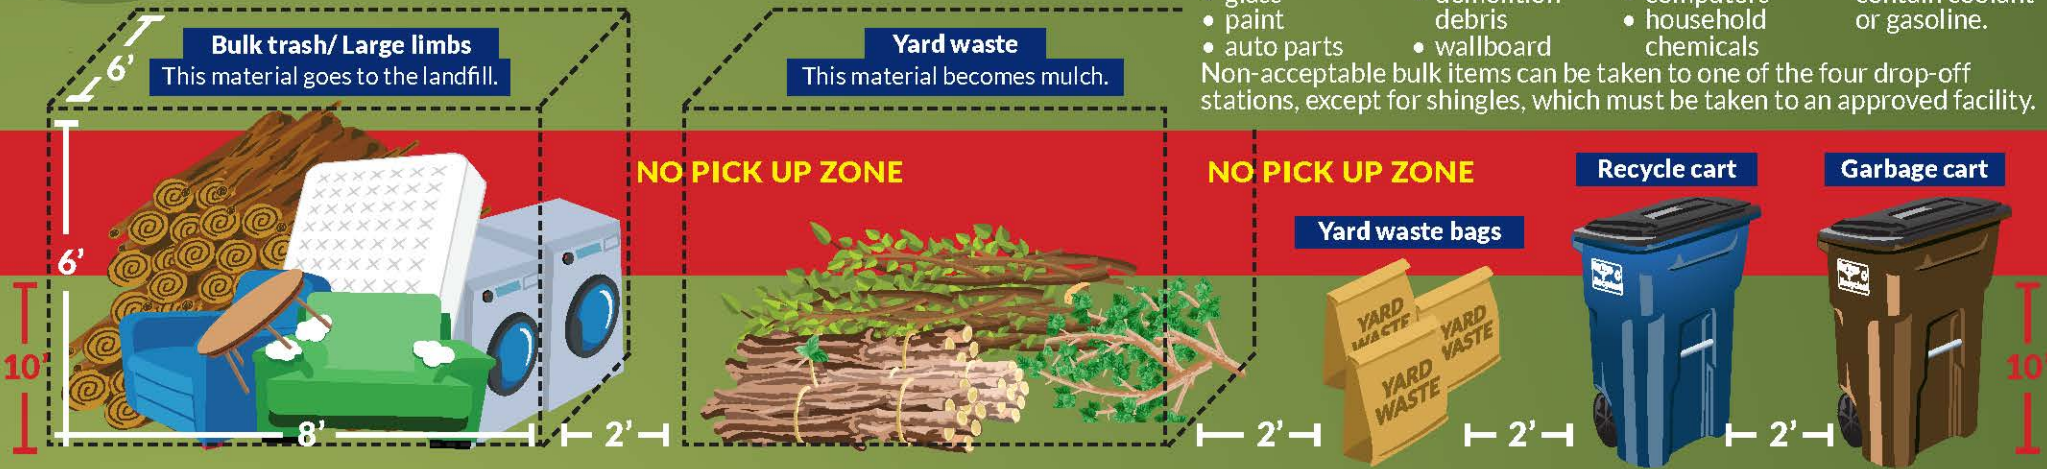

To ensure your bulk pile is collected safely and effectively during your scheduled week, please follow these rules:

- 1 Have all materials placed on the curb by 7 a.m. Monday morning of your scheduled collection week.
- 2 Create one, neatly stacked bulk pile (includes bulk trash and large limbs.)
 - The pile can be up to 10 cubic yards, 6 feet wide x 8 feet long x 6 feet tall. (The size of a Volkswagen Bug.)
 - Plastic bags are not allowed; residents may incur fines if plastic bags are used.
 - All piles, yard waste bags and carts must be separated by at least 2 feet to be collected and to avoid extra fees. (No materials can be placed between piles as this creates one large, out-of-compliance pile.)
- 3 Any items that will fit in your brown garbage cart are not bulk and should be put in plastic bags and put in your brown garbage cart.
- 4 Large limbs means over 4 inches in diameter or up to 8 feet long. Brush smaller than this is yard waste and can be collected weekly as part of your yard waste collection, if it is separated from large limbs/bulk pile.

The following materials **CANNOT** be set out for bulk collection:

- plastic bags
- tires
- glass
- paint
- auto parts
- batteries
- remodeling debris
- wallboard
- lumber
- televisions
- computers
- household chemicals
- household appliances that contain coolant or gasoline.

Non-acceptable bulk items can be taken to one of the four drop-off stations, except for shingles, which must be taken to an approved facility.

Bulk piles should be placed curbside and not block the roadway.

Items placed beyond 10 feet from curb are in the **NO PICK UP ZONE**.

Bulk and yard waste piles are limited to 10 cubic yards each (6 feet x 8 feet x 6 feet).
The size of a Volkswagen Bug.

Allow for 2 feet of separation between the bulk pile, yard waste pile, yard waste bags and collection carts.
