Cornell Gordon, PACS	Absent
Sheila Hill, Park Board Member	Absent

2. Overview of GDRC Agenda. Full Transcription of recorded meeting is below:

We are ready to begin our Gas Drilling Review Committee Meeting.

Chesapeake Energy – Centerport Pad A-1, Centerport Pad A-2 (TRANSPORTATION ROUTES)

Christen Doggett – I am Christen Doggett with Chesapeake Energy, 100 Energy Way; we are requesting a temporary transportation route approval for our Centreport A-1 and A-2 pads. A developer came in and took out the west portion of Amon Carter Boulevard. Now we have to drive all the way around and access the site through the east portion of Amon Carter Blvd. We have had lot difficulties with this developer; I was just talking to the gas well inspector about it.

Allison – So how does your currently approved route work?

Christen – (Christen shows in the map how they used to access the pad site through the west portion of the road)

Allison – Is this route temporary for you? Will you go back to using your previously route once the development is completed? Or do you know what the final development project is going to look like?

January 28, 2016 Gas Drilling Review Committee Meeting Notes

Christen – I am not sure what their timing is, or what will it look like; but it is my understanding that once they finish, they will rebuild the road and we will be able to access the pad site through the original route. That is our preferred route.

John Lopez: The road will be completed in two weeks.

Christen Doggett: That would be great

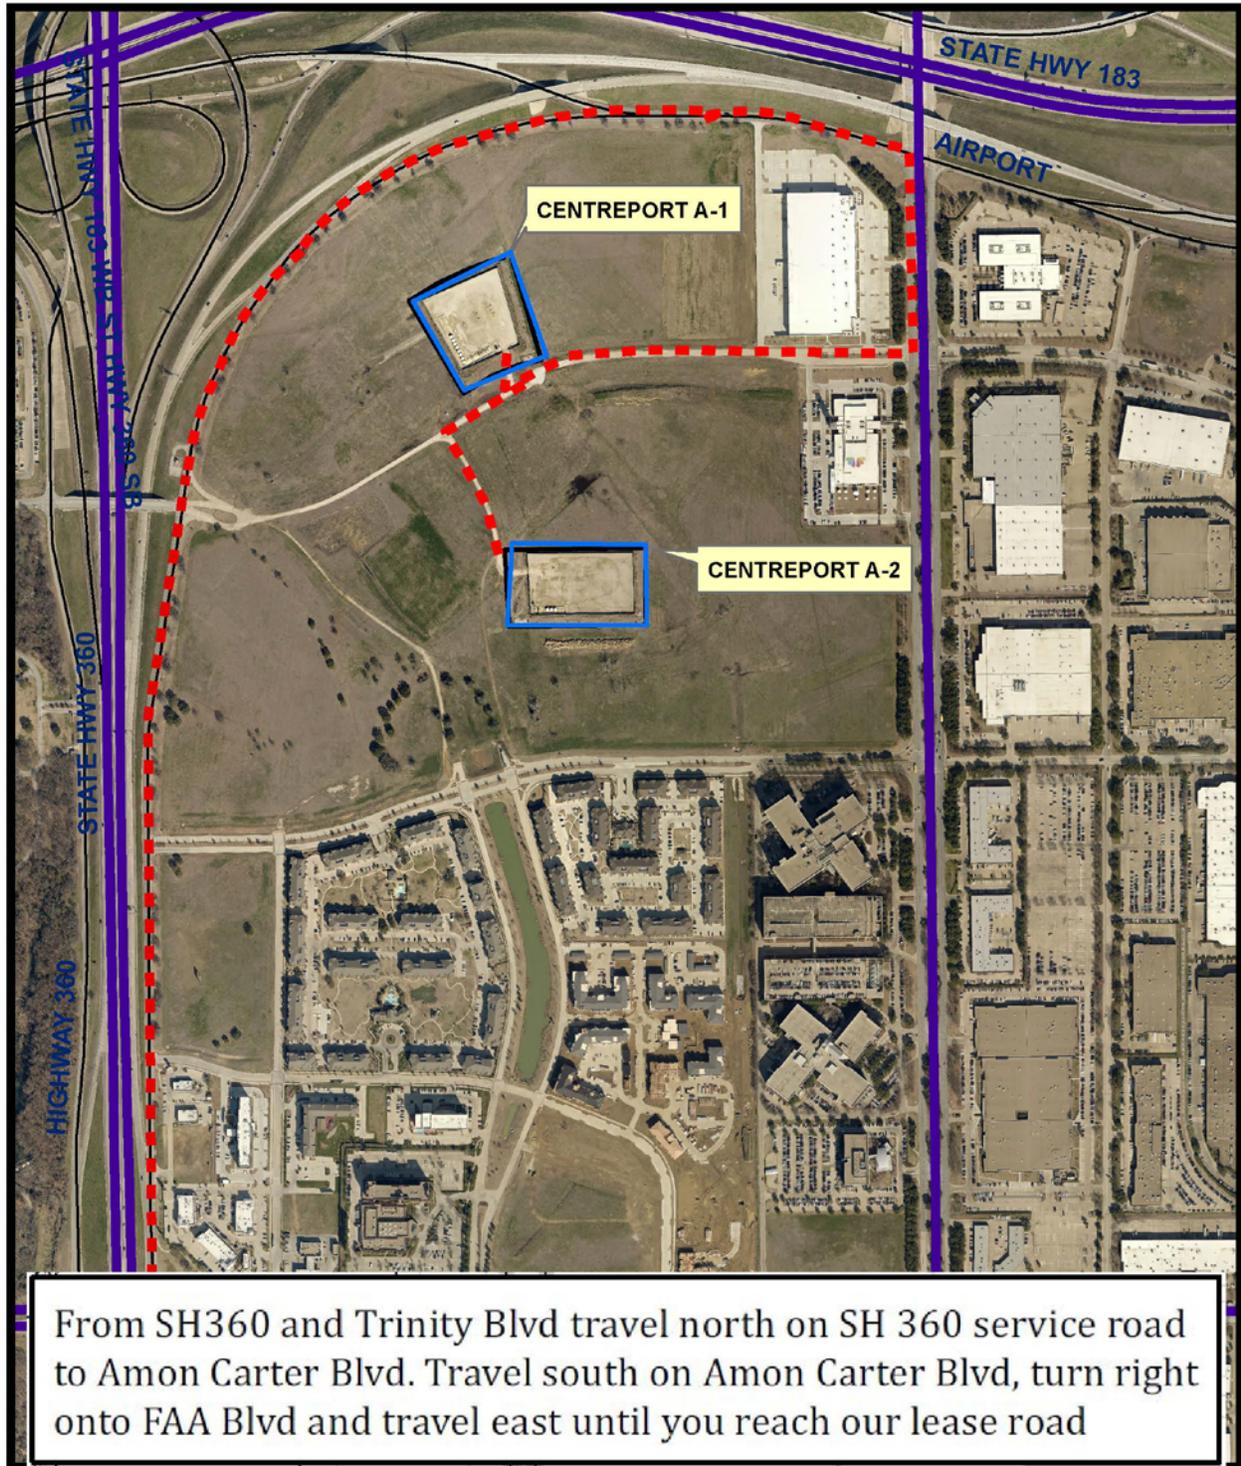

Does anyone have any questions?

No response.
