

What do I do with my bags?

Your litter cleanup bags

Black or white – litter and garbage
Clear – **clean** recyclables only

Don't leave bags behind

Do not abandon trash or recycling bags on any property or place them in a dumpster that does not belong to you. This is considered illegal dumping.

Take bags to a drop-off station

Please take bags to one of the drop-off locations on the drop-off map. Drop-off stations accept litter bags, clear recycling bags with clean recyclables, electronic waste, household hazardous waste, and tires (limit 4). They are open to residents of Fort Worth with a valid ID that has a Fort Worth address. If you are cleaning an area of Fort Worth, but do not have a Fort Worth address, you will need to take the voucher with you. Supplies and drop-off stations are not available for cleanups that occur outside of Fort Worth or FWISD schools.

If you clean a park

If you registered to clean a park, you may leave your bags by the trash bins in the park. If you did not register to clean a park, please do not leave bags in a park. Our crews won't know to come get them. Please note that crews will not separate recycling. Please take bags of recyclable items to a drop-off station.

Request a bag pick-up

When you are finished with your cleanup, if you are unable to take your bags to a designated drop-off location, please call 817-392-1234 and ask for a ***litter cleanup special collection***. Please do not call before your cleanup, as you will need to give them the exact location of the bags. They must be left in an area accessible to a garbage truck. Please note that recycling is not available when using this option. All bags will go to the landfill.
