

What to do with your bags

Your litter cleanup bags

Black or White – litter and garbage

Clear – clean recyclables

Don't leave bags behind

Do not abandon trash or recycling bags on any property or place them in a dumpster that does not belong to you without permission. *This is considered illegal dumping.*

Take bags to a drop-off station

Please take bags to one of the drop-off locations on the map. Drop-off stations accept litter bags, clear recycling bags with clean recyclables, household hazardous waste, appliances (emptied of Freon and other harmful chemicals) and tires. They are open to residents of Fort Worth - bring a valid ID with a Fort Worth address or a current City of Fort Worth water bill.

If you are cleaning an area of Fort Worth, but do not have a Fort Worth address, *you will need to take a voucher with you.* This will allow you to use the drop-off station free of charge for participating in the cleanup.

Request a bag pick-up

When you are finished with your cleanup, if you are unable to take your bags to a designated drop-off location, please call *817-392-1234* and ask for a *litter cleanup special collection.*

Please do not call before your cleanup, as you will need to give them the exact location of the bags. They must be left in an area accessible to a garbage truck. Please note that recycling is not available when using this option. All bags will go to the landfill.

Thank you for doing your part to Keep Fort Worth Beautiful!
