GENERAL SUMMARY

Supervises, assigns, reviews and participates in the work of employees responsible for the inspection of public works infrastructure projects, including the construction, repair, maintenance, demolition or alteration of streets, curbs, sidewalks, driveway approaches, drainage facilities, underground utilities and related structures and City buildings. Ensures work quality and adherence to established policies and procedures; and performs the more technical and complex tasks relative to assigned area of responsibility.

ESSENTIAL DUTIES & RESPONSIBILITIES

The intent of this job description is to provide a representative summary of the major duties and responsibilities performed by incumbents of this job. Incumbents may be requested to perform job-related tasks other than those specifically presented in this description.

1. Supervises staff, which includes prioritizing and assigning work; conducting performance evaluations; ensuring staff is trained; ensuring employees follow policies and procedures; maintaining a healthy and safe working environment; and, making hiring, termination, and disciplinary decisions or recommendations.

2. Establishes schedules and methods for providing construction inspection services; identifies resource needs; reviews needs with appropriate management staff; and allocates resources accordingly.

3. Participates in the development of policies and procedures; monitors work activities to ensure compliance with established policies and procedures; and makes recommendations for changes and improvements to existing standards and procedures.

4. Monitors and evaluates the quality, responsiveness, consistency, efficiency and effectiveness of construction inspection programs, service delivery methods and procedures; and works with employees on the continuous improvement of city services.

5. Recommends and assists in the implementation of goals and objectives; and implements approved policies and procedures.

6. Performs the more technical and complex tasks of the work unit. Schedules and attends pre-construction conferences; conducts final inspections; reviews pay estimates and change order for accuracy; accepts completed projects; and maintains records and files on projects.
7. Addresses citizen, customer and client concerns and complaints regarding projects.
8. Makes recommendations on constructability of design for assigned projects. Designs needed changes and/or additions to plans and specifications.
9. Reviews proposed project plans, specifications and quantities; and relays any omissions, errors or related concerns to the appropriate responsible staff.
10. Reviews and evaluates construction change orders; determines whether cost estimates comply with current market prices; and processes change orders.
11. Reviews recommendations for plan changes during construction; and approves or denies changes.
12. Meets with design professionals or contractors to interpret design intent and modifications to plans and specifications; provides technical guidance and interpretation; and ensures compliance with city and industry standards, procedures and regulations.
13. Participates in the preparation and administration of the construction inspection program budget; submits budget recommendations; and monitors expenditures.
14. Prepares analytical and statistical reports on operations and activities.
15. Performs other related duties as required.
16. Adheres to assigned work schedule as outlined in the Department and City attendance policies and procedures; ensures all behaviors comply with the City’s Personnel Rules and Regulations.
