

Lead and/or Copper Water Analysis Request

I am requesting an analysis of my tap water for lead and/or copper. I understand that if defects are discovered in my plumbing that contribute to a higher than normal lead and copper content in my water, it will be my own responsibility to make the repairs and that the City of Fort Worth bears no responsibility for my private plumbing. I understand the cost for this service is \$15.00 for each faucet tested for one metal only or \$30.00 for each faucet tested for lead and copper.

Company/ Individual Name _____ Date _____

Attention (Individual analysis results goes to): _____

Address _____

_____, Texas Zip _____ Phone _____

Lead Only: # of Faucets being tested _____ x \$15.00 = \$_____ Total Amount

Copper Only: # of Faucets being tested _____ x \$15.00 = \$_____ Total Amount

Lead & Copper: # of Faucets being tested _____ x \$30.00 = \$_____ Total Amount
