# Code Report

---

# CODE REPORT

The monthly Code Report is an initiative of the City of Fort Worth's Code Compliance Department aimed at keeping residents of Fort Worth abreast of the department's services to the community and the results of such efforts.

The Code Compliance Department has five main public service areas:

- Animal Care & Control
- Code Enforcement
- Consumer Health
- Environmental Quality
- Solid Waste Services

Since the first edition published in March 2016, the Code Report has grown to the current format, which relays the monthly results of all five areas of services of Code Compliance. The initial issue only reported on the activities of Animal Care & Control.

As it can be gathered from the results conveyed in the current Code Report, all areas of service continue to achieve impressive results as they strive to provide outstanding customer service to the public.

Please take the time to read the Code Report and share your thoughts with us. We value your insights and feedback on Code Compliance's various programs and look forward to hearing from you.

Please notice that unless noted the Code Report reports on the fiscal year instead of the calendar year. Fort Worth's fiscal year runs from Oct. 1 through Sept. 30.

## ANIMAL CARE & CONTROL

Animal Care & Control provides animal shelter operations, animal adoption centers, spay/neuter and low-cost vaccination clinics, animal ordinance enforcement and public education. These programs work to reduce the number of stray animals in the city, minimize the threat of diseases, such as rabies, and prevent injuries caused by animals. It's the shelter's goal to find loving homes for all the animals that end up in its care.

# ANIMAL CARE & CONTROL

## February 2019 Statistics

This chart reflects the monthly movement of animals in and out of the shelter. Most significant is the shelter's live release rate, which indicates how many pets successfully left the shelter either through adoption, rescue or return to owner. The daily challenge of managing a municipal shelter is daunting because Fort Worth Animal Care & Control is mandated to accept any animal that comes from within city limits.

<b>February Live Release Rate: 97.13%</b>	<b>Dogs</b>	<b>Cats</b>	<b>Total</b>

# ANIMAL CARE & CONTROL

## Live Release Rate

The “live release rate” indicates how many pets successfully left the shelter either through adoption, rescue or return to owner. The FY2018 annual rate of 90.58 percent is another accomplishment for the shelter and its partners. These statistics are nearly unobtainable by many government-operated shelters due to lack of resources, funding and collaborative partnerships.

# ANIMAL CARE & CONTROL

## Return to Owner

A huge effort is made by animal control officers working within the neighborhoods to return stray/lost pets to their owners without impounding the pets at the shelter. Pets who wear collars with city license tags or pets who are microchipped have a high rate of being returned to their owners.

### ANNUAL RETURNED TO OWNER

## Annual Spay and Neuter Surgeries

In order to reduce the stray pet population and to protect the public from safety issues that can occur because of unaltered stray animals, all pets that land in Fort Worth Animal Care & Control are spayed or neutered before they are adopted, rescued or returned to owners. This chart provides an overview of the dramatic intake of animals coming into the shelter and the mandatory spay/neuter surgeries. FY 2015 and part of FY 2016 Fort Worth conducted a pilot program of Return to Field for stray cats where the cats were trapped, spayed/neutered, and vaccinated and returned to trap location.

## FISCAL YEAR TO DATE SPAY AND NEUTER SURGERIES

## FEBRUARY SPAY AND NEUTER SURGERIES

## Foster Program – Cowtown Crashpads

In 2015, Fort Worth Animal Care & Control created its first foster care program called Cowtown Crashpads. This program has been a huge success in allowing pets to have the time they need to become adoptable. Pets that enter into the foster program may be recovering from illnesses, injuries or may include newborns that are too young to be adopted.

### ANIMALS IN FOSTER CARE

Note: Chart reflects calendar year data

# ANIMAL CARE & CONTROL

## Volunteer Program

A new volunteer program was established in 2014 to provide much needed assistance at the animal shelter, as well as its two PetSmart Adoption Centers. The program has steadily grown to include volunteers who regularly play with and socialize the pets, offer support to staff members, and assist with special adoption events, such as Clear the Shelters, Shelter Pets Rock and the PetSmart Charities National Adoption Weekends throughout the year.

### VOLUNTEER HOURS

*Note: Chart reflect calendar year data*

## Enforcement and General Citations

Fort Worth Animal Care & Control provides enforcement of a number of state laws and city ordinances to protect the community at large.

### ANNUAL CITATIONS ISSUED

The number of citations issued depends on the number of stray animals reported in the City of Fort Worth. In 2015, FWACC implemented a new program of returning dogs to their owners in the field. This program, combined with an adding a stray team program in 2014, resulted in a decrease in the number of citations written in 2015.

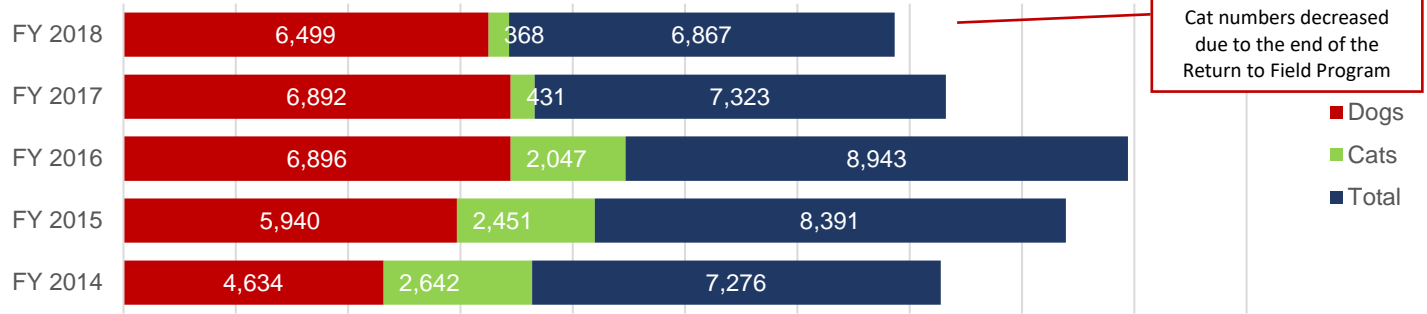

# ANIMAL CARE & CONTROL

## Stray Animal Capture

In 2014, Fort Worth Animal Care & Control furthered its efforts with a new focus on removing stray animals from the streets in our community and implemented the stray team program. The stray teams' singular focus is to capture stray animals within the city. There are currently two teams of three officers. Their efforts, in conjunction with other animal control officers' efforts, have also included record-setting numbers of dogs returned to their owners in the field.

# CODE ENFORCEMENT

Code Enforcement has two divisions: the Neighborhood Investigations Division and the Building Standards Division. These divisions maintain Fort Worth's status as a clean, livable and attractive city.

# CODE ENFORCEMENT

## Neighborhood Investigations Division

Neighborhood Investigations Division consists of the neighborhood Code Officers who investigate violations, such as high grass and weeds, open and vacant structures, junk vehicles, accumulation of debris, contaminated bulk waste, and zoning issues.

### VIOLATIONS WORKED

### VIOLATIONS BY PRIORITY

The Neighborhood Code Officers work violations based on priority.

Priority 1 violations are the most dangerous, such as sewage leaks, stagnant water, open/vacant structures, and grass more than 24 inches tall.

Priority 2 violations include accumulation of debris, bulk waste violations, junk vehicles, animal violations, and grass between 18 and 24 inches tall.

Priority 3 violations include garbage/recycling cart violations, garage sales and grass between 12 and 18 inches tall.

Building Standards Division

The Building Standards Division consists of the Substandard Buildings Section and the Multi-Family Registration and Inspection Program. The substandard building Code Officers inspect residential and commercial structures while the multi-family Code Officers focus on apartment complexes and properties with three or more units.

VIOLATIONS WORKED

A substandard structure is any building that does not meet the standards or specifications established in the building, plumbing, electrical, and mechanical codes that may endanger the life, health, and safety of residents.

# CODE ENFORCEMENT

## Substandard Structures

A substandard structure is any building that does not meet the standards or specifications established in the building, plumbing, electrical, and mechanical codes and endangers the life, health, and safety of the public.

### SUBSTANDARD STRUCTURE CASES BY CATEGORY

Structures are prioritized based on three categories. Hazardous structures are the most dangerous and need to be repaired or demolished as soon as possible.

### BUILDING STANDARDS COMMISSION ORDERS BY CATEGORY

When property owners fail to repair or demolish substandard structures, the property may be taken before the Building Standards Commission. This Commission has the authority to order an owner to comply with all applicable laws and ordinances, including repair or demolition of a structure, and to order a property owner to remove or abate a nuisance.

The Commission does not meet in November or during inclement weather.

## Open and Vacant Structure Violations

When abandoned structures remain open and unsecured, they provide opportunities for illegal activities, such as prostitution and drug sales. Sometimes vagrants gain access and burn structures down while trying to stay warm in winter months. Abandoned structures also can deteriorate, becoming eyesores, and contributing to urban blight.

## Code Enforcement Safe Neighborhood Initiatives

A Safe Neighborhood Initiative is a concentrated educational effort to remove blight and improve a neighborhood by encouraging cooperation and increasing neighborhood pride. Code Officers go door-to-door educating residents about code violations. Residents are given an opportunity to abate any existing violations identified during the discussion. If not abated within a given timeframe, property owners and residents are issued notices of violation. If necessary, enforcement action is taken.

### VIOLATIONS BY PRIORITY

## Fort Worth Code Rangers

The Fort Worth Code Rangers is a voluntary program that seeks to promote healthy neighborhoods through community empowerment and action by establishing and maintaining a strong relationship between citizen organizations and the Code Compliance Department.

Trained Code Rangers provide reports of suspected code violations. The city then sends courtesy letters to property owners and residents regarding possible code violations in an effort to improve the appearance and safety of the neighborhood. The goals of the program are to:

- Encourage residents and property owners to maintain their homes and yards in order to preserve property values and discourage crime.
- Allow Code Officers the opportunity to devote more time to chronic, dangerous, or complicated issues affecting the neighborhood.
- Create a greater sense of community in each neighborhood by encouraging cooperation and increasing neighborhood pride.
- Make Fort Worth a cleaner, safer, and more attractive place for all residents.

# CONSUMER HEALTH

Consumer Health staff members provide health inspections, complaint investigations and education. Major tasks include enforcing the city's community health ordinances at permitted facilities and ensuring public safety by coordinating mosquito surveillance and prevention activities, as well as enforcing the game room ordinance.

## Permit Suspensions Due to Imminent Health Hazards

Addressing imminent health hazards that could cause harm to the public or employees, is a necessary part of a health inspector's job. When floods, fires or electrical outages occur, it can damage the business and the ability to operate safely. Health inspectors are charged with ensuring that safety remains a top priority, no matter the emergency. Consumer Health suspends the health permit, denying the business permission to operate if the operator can no longer safely provide services. The following are examples of why businesses need to close.

- Flood, fires, electrical and water outages.
- Unsanitary conditions or pest control issues.
- Inadequate hot water or refrigeration for food service.

Each operator is informed of the reason their permit is suspended, and the health inspector works with the business to expedite reopening, even if that means visiting the business at 2 a.m. If the emergency has been resolved, it is our goal to get them operating as soon as possible.

### FIXED FOOD BUSINESS/GOURMET FOOD TRUCK PERMIT SUSPENSION

### PUBLIC SWIMMING POOL PERMIT SUSPENSION

Public Pools and Spas are inspected annually during the spring and summer. Drowning and injury are more common when pools are not properly maintained and the lifesaving equipment is not easily available. Health inspectors work diligently to ensure that all public pools such as apartments, hotels, homeowner's associations and fitness clubs always provide a safe swimming environment for their users.

# CONSUMER HEALTH

## HOTEL/MOTEL ROOMS PERMIT SUSPENSION

Consumer Health works to ensure that all rooms available for guests are safe and sanitary. When conducting inspections of these rooms, health inspectors will close the room if there are violations such as bed bugs, broken plumbing, or problems with the fire alarm in addition to a lack of cleanliness.

## Food Complaints and Foodborne Illness

Preventing foodborne illness is a top priority in Consumer Health. Officers investigate each report of foodborne illness received from Tarrant County Public Health within 24 hours in order to stop the possible spread of illness. Consumer Health also addresses citizen complaints about food establishments' operations that could lead to foodborne illness. These complaints are more common and are addressed based on the complaint's risk of illness. Consumer Health maintains a record of investigating 95 percent of complaints within 72 hours.

## Percentage of Passed Inspections

The Consumer Health Division conducts more than 6,000 inspections annually in food establishments. This includes restaurants, childcare kitchens and grocery stores. It also includes the corner stores, bars and gourmet food trucks that have become popular in Fort Worth. Health inspectors work with business owners to ensure food safety. Businesses that compromise food safety are given demerits during the inspection. This chart shows the percent of businesses that earn less than 30 demerits and "pass" their health inspection. Businesses that earn more demerits are subject to being closed and are not allowed to reopen until they can serve food safely to our citizens.

# CONSUMER HEALTH

## Commercial Compliance

The Consumer Health Commercial Compliance team is tasked with ensuring that commercial businesses throughout the City of Fort Worth are following the zoning ordinances and being good neighbors to the surrounding residents. The Senior Code Compliance staff members assigned to this team address violations with the businesses. Notices of these violations are routinely received from citizens and neighborhood associations as we interact within the city. Additionally, the team regularly monitors the commercial corridors of the city to ensure that Fort Worth looks its best. The team focuses on bringing long-term compliance where businesses are either violating their zoning permissions or not maintaining their business property adequately.

### COMMERCIAL ENFORCEMENT VIOLATIONS WORKED BY PRIORITY

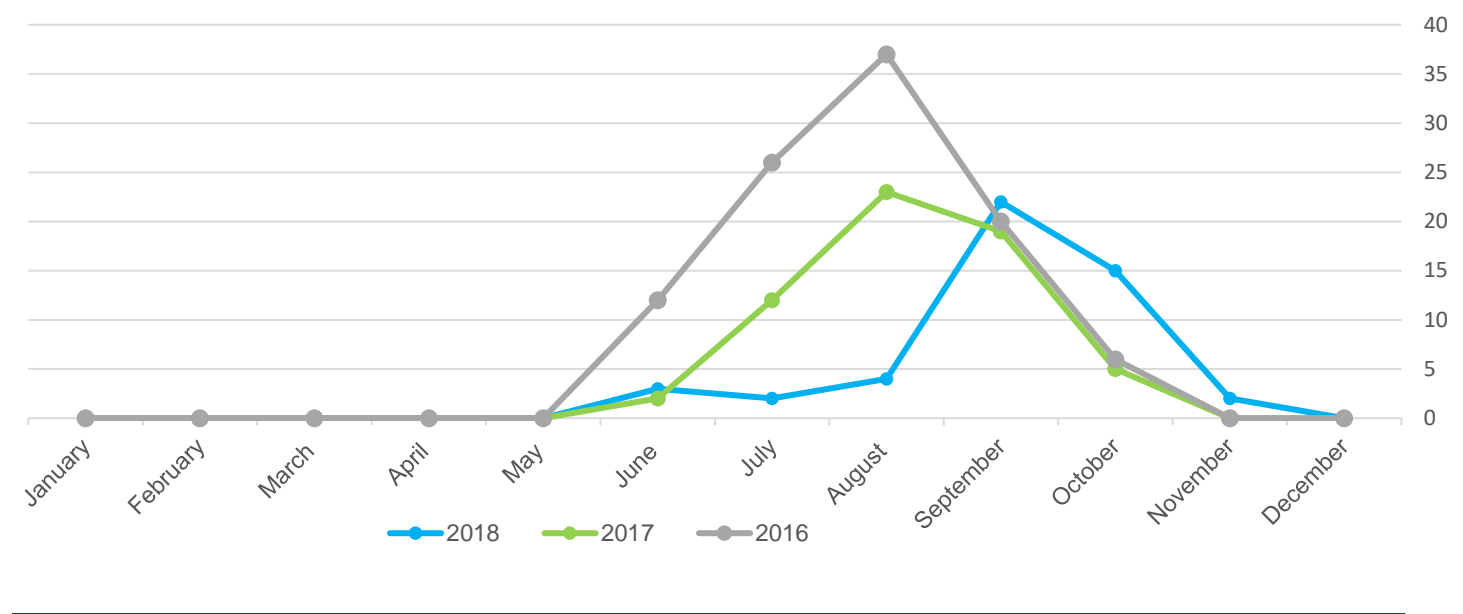

### ZONING AND PROPERTY MAINTENANCE VIOLATIONS

West Nile Virus Activity in Mosquitoes

Mosquito diseases are spread to humans through their bites. The Consumer Health Division collects samples of mosquitoes from June to October to test them for West Nile Virus. We use this data to target our prevention and education efforts to prevent the spread of those diseases to citizens that are at the highest risk locations. After 2012, when the West Nile Virus illness became a risk in the North Texas area, we partnered with the University of North Texas Health Science Center to have a cost-effective surveillance program that measures the risk of illness to prevent it. Our targeted education and mosquito spraying program is initiated based on our findings each week during the mosquito season. The chart below shows mosquitos that tested positive for West Nile Virus each month.

Reported Citizen Concerns: Mosquito Investigations

Citizen concerns about mosquitos are typically investigated within 24 hours. Consumer Health staff members educate residents about mosquito prevention and treat any stagnant water they find to prevent mosquito growth.

### PROTECT YOURSELF FROM MOSQUITOES

[FortWorthTexas.gov/mosquitoes/](http://FortWorthTexas.gov/mosquitoes/)

## ENVIRONMENTAL QUALITY

The Environmental Quality Division ensures compliance with federal, state and local environmental regulations to promote a clean and healthy environment. Staff members monitor ambient air and local water quality, investigate concerns of environmental contamination, ensure environmental permit compliance and provides safe household and city-generated hazardous waste disposal. Staff members also engage in the brownfields program to encourage revitalization of economically distressed areas. These programs support economic development in Fort Worth through the integration of environmental assessment, remediation and education. Additionally, staff members provide management strategies and policy oversight for litter management.

# ENVIRONMENTAL QUALITY

## Air Quality Index

In February 2019, 28 of 28 days were reported as 'green' or 'good' air quality days (i.e., between 0 and 0.054 parts per million (ppm) 8-hour ozone measured). Green is the best score available within the Air Quality Index (AQI) which reports an analysis of daily air quality readings in both numerical and colorimetric format. This is consistent with the colder weather normally seen within this month.

## Air Quality Complaints Investigated

In February 2019, the Air Quality Team received seven air complaints. The current number of complaints for this month is more than average compared to last 12 months.

## Hazardous Material Spill Response

In February 2019, a total of four spills or notification of abandoned waste were investigated. For the past 12 months, an average of six spills were investigated per month. Staff continue to respond to all hazardous material spills, 24 hours per day/7 days a week/365 days per year.

## Demolitions

The best scenario for properties in disrepair is for the owner to create a safe environment without having to involve the city whether it be to repair the structure or to hire a contractor to abate the property. When the owner is not able to do this on their own, the city will intervene and demolish the unsafe structure to meet building standards. The Senior Code Officer works with the property owners to come up with a reasonable outcome before moving forward with a city demolition. In February 2019, a total of four demolitions were completed by the city and six demolitions or repairs were completed by their respective owners. At this time one property is on hold for city demolition and seven properties are pending demolition with variable circumstances.

# ENVIRONMENTAL QUALITY

## Stormwater Quality Complaints

In February 2019, the Water Quality Team received 18 complaints. The current number of complaints for this month is below the average of 25 compared to most months of the year.

## Construction Stormwater Inspections

In February 2019, a total of 129 construction stormwater inspections were completed. During February, the team was down one inspector and was onboarding a new hire. In addition, the construction territories were re-drawn and many sites were reassigned which caused there to be fewer inspections during that transition. Inspection numbers have decreased over the past 12 months as inspection quality and enforcement have increased, and other inspection duties have resumed. Staff regularly performs stormwater quality inspections on active construction sites that disturb 1.0 acres or greater or are part of a larger Common Plan of Development. The team inspects for issues on projects including erosion and loss of sediment, trash, and debris management, concrete and paint washouts, proper spill and hazardous material containment, proper stabilization or grass growth, and more. All of these inspections are performed with the goal of maintaining compliance with the City's MS4 Permit with the TCEQ, and more importantly, ensuring our surface waters are kept free of pollutants which helps lead to clean and healthy ecosystems.

## Grading Permit Reviews

In February 2019, a total of 18 grading permits were submitted for environmental review. Grading Permits are submitted through the Planning and Development Department in order to allow the disturbance of land for construction activities like grading, clearing, grubbing, and excavations. The grading permits must be approved by all reviewing departments prior to the disturbance of land. Performing these grading permit reviews allows the City an advanced opportunity to review these developments' plans prior to the start of construction activities in order to ensure they meet all state and local regulations and criteria to prevent water pollution.

## Industrial Stormwater Inspections

In February 2019, a total of 31 industrial stormwater inspections and on-site follow-ups were completed. The team was down one inspector during the month of February and onboard a new employee. Inspections are performed to verify compliance with Texas Pollutant Discharge Elimination System Permits for industrial sources. Facilities are inspected to determine compliance with recordkeeping, monitoring, facility inspections, and housekeeping requirements. Industrial sources include a variety of facilities such as metal fabricators, food production, salvage yards, and chemical facilities.

# SOLID WASTE SERVICES

The Solid Waste Services Division manages the garbage, recycling and waste reduction services for the citizens of Fort Worth. All curbside collections are provided by contractors. More than 222,000 single-family residences receive weekly garbage, yard waste and recycling collection services. Bulk waste is collected monthly.

Fees are charged through the water billing system and assessed based on garbage cart size. We offer 32-, 64- and 96-gallon carts; this is called a Pay as You Throw (PAYT) system, and all solid waste services are included in the fee.

Commercial collection is open market, allowing businesses to choose their own contractor from permitted commercial solid waste haulers.

# SOLID WASTE SERVICES

## Primary Sections

**Contract Compliance** section duties include oversight of the following contracts:

- Curbside Collections – Waste Management
- Landfill Operations – Republic Services
- Recycle Processing – Waste Management
- Cart Purchases and Maintenance – Toter
- Roll-Off container transportation for Drop-Off Stations – Republic Services
- Bulk Disposal – Progressive Waste Solutions
- City Facilities Garbage and Recycling – Republic Services

**Litter and Illegal Dumping Operations** section is primarily responsible for the following:

- Responding to illegal dumping and litter complaints through abatement.
- Collecting dead animals from residences and city streets.
- Street sweeping major city arterial roadways
- Code enforcement activities related to illegal dumping and litter.

**Drop-Off Station** section is responsible for managing operations at the four existing drop-off stations. There is no additional charge for Fort Worth residential solid waste customers to use the stations. They accept excess garbage, brush, bulk items, recycling, hazardous household waste and recycling. Citizens can also drop off tires, electronics and household items.

## DROP-OFF STATIONS

### **Brennan Drop-off Station**

2400 Brennan Ave.  
Fort Worth, TX 76106

### **Southeast Drop-off Station**

5150 Martin Luther King Jr. Freeway  
Fort Worth, TX 76119

### **Hillshire Drop-off Station (North Service Center)**

301 Hillshire Blvd.  
Haslet, TX 76052

### **Old Hemphill Road Drop-off Station**

6260 Old Hemphill Road  
Fort Worth, TX 76134

# SOLID WASTE SERVICES

## Drop-off Station Visits

As a part of the monthly Solid Waste program, the city offers homeowners who pay for residential services access to four conveniently located Drop-Off Stations. The stations allow residents to dispose of excess bulky materials (appliances, brush, broken furniture, tires, extra bagged garbage and other large items) between their monthly bulk waste collections. In addition, the Drop-Off Stations have reduced the number of illegal dump sites and pounds of material collected since opening to residents.

For more information, visit [www.FortWorthTexas.gov/solidwaste/dropoff](http://www.FortWorthTexas.gov/solidwaste/dropoff).

### DOS FIVE YEAR MONTHLY AVERAGE

### FIVE YEAR MONTHLY AVERAGE – SITES CLEANED & WASTE REMOVED

# SOLID WASTE SERVICES

## Solid Waste Apps

The city offers the Fort Worth Garbage and Recycling App. This free app enables residents to receive service notifications before their service days. The reminders include bulk-waste setout weeks and scheduled collection changes due to inclement weather.

The app lets residents report service issues, including missed collections and damaged carts, and it also provides information about recycling. To learn more about the Fort Worth Garbage and Recycling App, call 817-392-1234 or visit the App Store or the Google Play store.

### WASTE WIZARD

There's also an easy to use Waste Wizard, which is an online tool to help customers learn what items go into the brown garbage cart and what goes into the blue recycling cart. The Waste Wizard provides information about how to properly dispose of more than 1,500 items. Simply type the name of the item, and the Waste Wizard will give instructions. Find the Waste Wizard at [FortWorthTexas.gov/solidwaste/recycling](http://FortWorthTexas.gov/solidwaste/recycling) or on the Fort Worth Garbage and Recycling App.

# SOLID WASTE SERVICES

## Litter Abatement

The City's Litter Abatement Crews work hard conducting city right of way cleanups, abating nuisance properties and beautifying the community. In September 2018 the City implemented new contracts with a vendor that lead to an increase in number of right of way miles cleaned. In January our number of sites cleaned doubled from December but overall weight went down. This is due to the fact that with regular frequent cleanups there is not the quantity of litter/trash present as there is during initial litter sweeps when the areas had not been cleaned for some time. Less litter present, allows the crews to clean right of ways quicker and accomplish more sites in a month. The emphasis on litter prevention and abatement requires our entire community – one piece and one person at a time.

*\*Large homeless camp cleanup in March 2018 created the spike in waste removed.*

## LITTER ABATEMENT – FIVE YEAR MONTHLY AVERAGE

# SOLID WASTE SERVICES

## Illegal Dump Cleanup

The Illegal Dump Crews play an integral part in cleaning up reported dump sites in a timely manner, which reduces the negative impact on the surrounding community and discourages others from adding materials to the site. In addition, they also assist the Environmental Investigation Unit and Litter Abatement Team with large jobs. Due to one of the wettest falls on record, equipment outages and seasonal dumping trends that typically decrease in the fall illegal dump numbers decreased starting in September 2018 but have started to pick back up this January. In December staff/equipment was at 47% operational and in January we increased to 75% of crews operational.

- In April, all tons from nuisance abatement cleanups and special projects was subtracted from total illegal dumps tons, which was not done since December 2016.

## ILLEGAL DUMPING – FIVE YEAR MONTHLY AVERAGE

# SOLID WASTE SERVICES

## Recycling Cart Auditors – The Blue Crew

Beginning in February of 2019 we started a different auditing process that includes removing non-recyclable items from contaminated carts and charging the residents for the collection and disposal of those items. In the past the residents received letters that itemized the non-recyclable items, and now there are charges assessed. The auditors have been more lenient to prevent residents who are trying to recycle correctly from becoming discouraged. We are in the process of reviewing the audit data and making any warranted adjustments to the procedures to make sure we have the most impact.

## Diversion and Waste Stream

Debris that is diverted from the landfill extends the life of the landfill. Diverted debris includes items that have been recycled, as well as yard waste. The more we, as a community, reduce, reuse and recycle, the more we protect our natural resources, landfill space and energy.

# SOLID WASTE SERVICES

## Missed Collections

Missed collections reported by residents point out areas that may have repeat incidents and are tracked to provide awareness of contractor performance.

## Environmental Collection Center

The Environmental Collection Center's (ECC) participation numbers were slightly down this month. This decrease is normally due to inclement weather and a shorter number of days during the month of February. The Center also collected more than 174,000 pounds of waste and recycled more than 23,000 pounds of material.

This month, the Drop-off Stations (DOS) serviced 627 residents who wanted to properly dispose of household hazardous waste. The DOS participation numbers has seen a consistent increase in numbers since its inception in 2017.

## Sweeping

The City of Fort Worth's nascent street sweeping program is comprised of two large sweepers and two auxiliary sweepers. The large sweepers primarily focus on main roadways and certain designated underpasses entering the downtown Fort Worth area and inside Loop 820. The auxiliary sweepers primarily focus on keeping areas clean adjacent to the Cities four drop off stations and some surrounding roadway medians. With current equipment and staffing, all street sweeping efforts are focused on main roadways. As the sweeper program matures and resources increase, we hope to expand sweeper operations to more city streets. In January 545 miles of roadway were swept (the second most miles swept in the past 12 months) removing 16 tons of litter, grit and debris.

## Citations Issued

The City of Fort Worth Environmental Investigation Unit (EIU) focuses primarily on illegal dumping and bandit sign investigations. Through eye witness accounts, camera and physical evidence, citations are issued and when possible cases are forwarded to Fort Worth Police Department as felony referrals for prosecution. Illegal dumping does not pay, as fines can be assessed up to \$10,000 and can include jail time. Five citations were issued for illegal dumping this January compared to two in January 2018.

### CITATIONS ISSUED

## Abatement

After illegal dumping occurs, the mess must be cleaned up. When the City of Fort Worth Code Officers catch a dumping violator, they are required to clean up their mess and dispose of the items properly. On average 25% of illegal dumps worked by the EIU unit are either violator or owner abated, which is a better use of our tax dollars and using City resources for cleanup efforts. This January 36% of illegal dump cases worked by the Cities Environmental Investigation Unit were violator/owner abated.

## Material Management Program

In Fort Worth, industrial, commercial and institutional waste accounts for approximately two-thirds of the total waste tonnage that ends up in the City's Southeast Landfill (SELF). The residential sector accounts for the remaining one-third of the total solid waste tonnage. At present rates of waste generation and disposal, the SELF has an estimated 19 to 33 years of remaining capacity, depending on the success of and community response to waste minimization, diversion and recycling program initiatives.

The City of Fort Worth manages a robust residential recycling program, but currently does not provide commercial recycling services. However, the City created a Material Management Program (MMP) to help businesses with waste minimization and diversion efforts, in partnership with permitted solid waste haulers and commercial recycling service providers.

The MMP provides information, resources, individual waste assessments, and technical assistance to industrial and commercial businesses, institutions, the Fort Worth Independent School District and multi-family complexes on ways to reduce waste and divert materials away from the SELF that can be either re-used, recycled, mulched or composted. MMP assistance is provided free of charge to the commercial and residential sectors. In some capacity, the MMP efforts are building upon the 30.3% 2017 diversion baseline.

The Code Compliance Department maintains Fort Worth's status as a clean, livable city by ensuring property complies with rules set by City Council. Code Officers routinely patrol assigned neighborhoods for code violations and investigate complaints with a mission of abating issues and educating residents.
