COMPREHENSIVE PLAN CONSISTENCY

Comprehensive Plan Alignment:

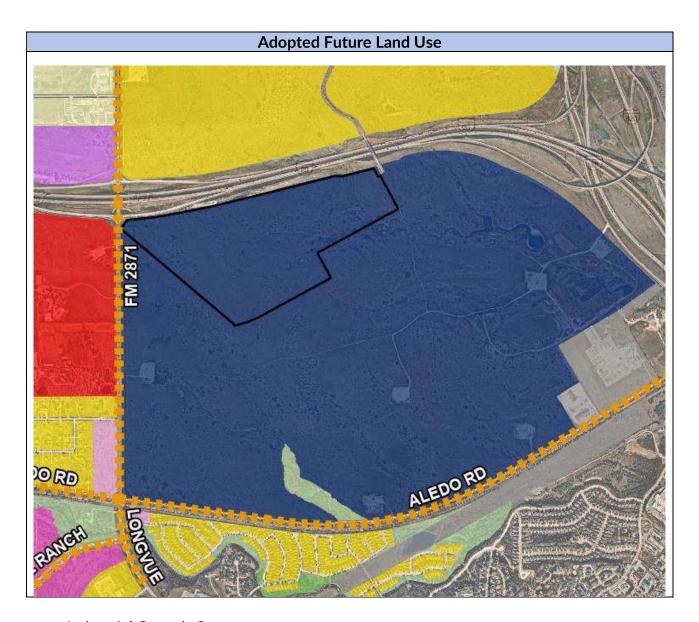

The proposed annexation and development are consistent with several Comprehensive Plan policies, emphasizing industrial development in specific growth areas, locating large industrial uses strategically, and protecting significant industrial districts. Applicable Comprehensive Plan Policies include:

1. Locate large industrial uses along freight rail lines, highways, or airports within industrial growth centers and other appropriate locations.

2. Protect industrial areas from encroachment. Through zoning, ensure that existing and planned major employment nodes and districts are protected from incompatible land uses and development.

Land Use Recommendation:

The adopted 2023 Comprehensive Plan Future Land Use (FLU) Map designates the 192.427-acre annexation area as Industrial Growth Center (IGC). Based on the proposed uses, the development is consistent with the designated future land use as Industrial Growth Center. No changes to the adopted Future Land Use Map are required to support this proposed annexation.

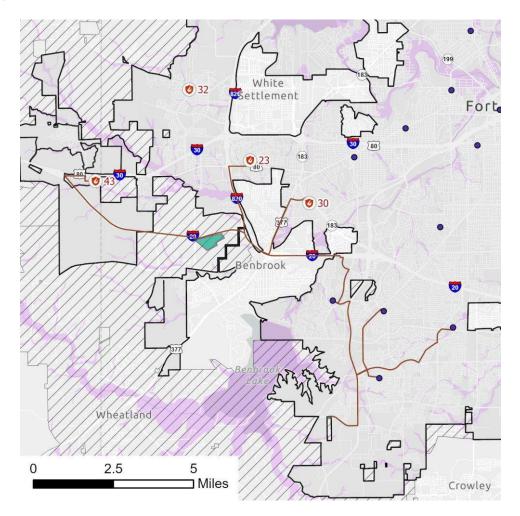

FIRE DEPARTMENT

The following table outlines the estimated response times for nearby fire stations to reach the center of the proposed annexation area, should an emergency occur.

Fire Companies	Fire Station	Estimated Response Time	
1 St Company Due	Fire Station 23 3201 Portales Dr	9.4 minutes	
2 nd Company Due	Fire Station 30 4416 Southwest Blvd		
3 rd Company Due	Fire Station 43 13300 Highland Hills Dr		
4 th Company Due	Fire Station 32 10201 White Settlement Rd		
Closest Aerial Truck	Fire Station 23 3201 Portales Dr	9.4 minutes	

The responding fire stations within proximity to the proposed annexation are shown on the map below.

Fire Department Response Time Comments: Fire and EMS first responder services will be dispatched from the existing Fire Station 23, located at 3201 Portales Dr, to the proposed annexation area. The current Fire Department response time goal is to arrive on the scene of emergencies within five minutes from the time of dispatch at least 75% of the time. Based on the existing fire stations located

close to this proposed annexation area, the Fire Department will not be able to meet this response time goal.

Fire Department Incidents Comments: Basic Life Support (BLS) emergency medical services by existing personnel and equipment of the Fort Worth Fire Department will be provided to the annexation area commencing on the effective date of the annexation. The Fort Worth Fire Department serves as the first responder on life threatening medical emergencies as a part of the MedStar system. All Fort Worth Fire Department personnel are certified as Emergency Medical Technician basic level or higher. All engines, trucks, and rescue units carry Automated External Defibrillators for use with victims who are in cardiac arrest.

The estimated cost of an additional incident is \$968. Multiplied by 10 incidents, the total additional annual cost of responding to the annexation is estimated to be \$9,680. However, once the area becomes more fully developed or if zoning for the area changes, this number will need to be adjusted.

Fire Platting Comments:

Nearby gas wells will not impact this site. The condition of Team Ranch Road, south of I20, may be undeveloped or under construction.

SUMMARY AND OVERALL RECOMMENDATION

Summary of Total Fiscal Impact:
