DETAILED PROJECT DESCRIPTION

Please provide a detailed summary of your proposal below. This should include a detailed description of the proposed use and reason for rezoning, how this use is compatible with surrounding land uses and the City's Comprehensive Plan, and any other details relevant to your request. Feel free to attach additional pages, concept plans, etc. as needed.

For PD or CUP requests, please explain why your proposal cannot be accommodated by standard zoning districts, clarify if any waivers are being requested and why, and detail any changes from previously approved site plans or development standards.

The subject tract is currently in the ETJ of Fort Worth. A companion annexation case was previously submitted as AX-25-001. This application is to request the site be zoned to "G" upon annexation. The Site is approximately 4.5 acres located in the southeast corner of the intersection of McPherson Boulevard and Old Granbury Road. Additionally the site is approximately 0.9 miles westerly of the Chisholm Trail Parkway.

The proposed zoning is to accommodate an anticipated Medical Office Building. The zoning will allow for a medical office to be situated with residential in close proximity. Thus providing medical, dental, etc support to the community.

The City's Comprehensive Plan designates the Site as being Single Family Residential. Surrounding the site to the north and east are residential homes. While the areas to the west and south are vacant. The site is at the corner of the two roadways with Neighborhood Commercial being across the street. A non-residential use is more suitable for a corner of this nature.

The proposed use in this location assists in creating the commercial corridor as shown on the Comprehensive Plan. By supporting this, it discourages the leap frogging of development.
