Bowman Consulting Group, Ltd, acting on behalf of the property owner, would like to apply for a Rezoning Application of approximately 4.039 acres of land situated in the P.M. Smith Survey, Abstract No. 1170, generally located at the southwest corner of FM 156 and Texan Drive.

The subject property, currently zoned as "AG" Agricultural, is proposed to be rezoned to "CF" Community Facilities. This change aligns with the surrounding land uses and is suitable for the proposed church development, which will address the institutional, educational, and welfare needs of the community. Churches and schools can be built in any zoning district and future land use category. However, for a rezoning request to be considered consistent with an area designated for future institutional use, the property must be rezoned to "CF" Community Facilities. The "CF" zoning accommodates public facilities such as churches, government offices, health services, public safety, colleges and schools, community and group homes, and recreational facilities.

Land Use Compatibility

The property is adjacent to Northwest High School to the north, Oak Creek Trails Single Family Development to the east, a vacant undeveloped lot to the west, and a gas well site to the south.

The proposed "CF" Community Facilities zoning is compatible with surrounding land uses for the following reasons:

- The property's current land use plan designation is General Commercial (GC).
- Surrounding land uses include vacant land to the west and a gas well site to the south, both designated as GC.
- The land to the east has a Single Family land use designation.
- The land to the north has an Institutional land use designation.

Therefore, the proposed "CF" Community Facilities zoning is suitable and compatible with this location.
