DETAILED PROJECT DESCRIPTION

Please provide a detailed summary of your proposal below. This should include a detailed description of the proposed use and reason for rezoning, how this use is compatible with surrounding land uses and the City's Comprehensive Plan, and any other details relevant to your request. Feel free to attach additional pages, concept plans, etc. as needed.

For PD or CUP requests, please explain why your proposal cannot be accommodated by standard zoning districts, clarify if any waivers are being requested and why, and detail any changes from previously approved site plans or development standards.

We are proposing a high-quality senior living facility tailored specifically to an active senior adult community, offering 222 residential units. Strategically located next to a major hospital to the west and near a planned commercial memory care facility to the north, this project will establish a well-connected network of senior care and services within the area.

Although the future land use plan designates this site for neighborhood commercial development, the proposed rezoning presents an exceptional opportunity to enhance the community by aligning with existing and planned health-care facilities. The senior living facility will help address the growing demand for specialized housing, fostering sustainable and vibrant growth that complements the surrounding infrastructure.

To ensure this facility remains dedicated to active senior adults, the property is bound by a Declaration of Reciprocal Easements, Covenants, Conditions, and Restrictions, limiting residential use to individuals aged 62 and older. This commitment solidifies our focus on meeting the unique needs of the senior population, while also delivering long-term value to the community.

We believe this project represents a progressive solution that thoughtfully balances the needs of the community with the city's broader development goals.
