The property has a main house, and a detached garage converted to a second unit . Both the main house and the 2nd unit were occupied for the last 3 years. The back unit is now vacant due to zoning compliance issues. We had applied and been denied without prejudice due to lack of off-street parking for both units. We have now constructed an additional driveway for the front house and the existing driveway in the back has been widened and can now accommodate 2 cars. The property now has a total of 3 off street parking spaces. The opposition in our last case was from the neighborhood alliance. Their concerns were solely based on the number of vehicles parked on the public street. We have since remediated this issue and would like to change the zoning from an A-5 to B. This will allow us to rent the second unit and still be in compliance with the city. These are both long term rental units. It's important to also note that not only do these types of rentals contribute to the consistent growing need for affordable and accessible housing, but they also create more housing options without making a real visible change to the neighborhood.

"PD/B" Planned Development for "B" Two-Family excluding community home, boarding home facility, government office facility, museum, waiver to the front yard parking; site plan included.
