

Trinity River Waterwheel Initiative

Goal:
\$1,900,000

Help us reach our goal!

Current:
\$1,340,700

Our fundraising goal is \$1.9M.

Join us to install a waterwheel to help collect and remove floating litter from the Trinity River. To be located near downtown Fort Worth, the future waterwheel will also be a place for education and a centerpiece to our commitment to keep our community safe and clean.
