

Revenue Receipting Policy

I. Authority

The Fort Worth City Council is responsible for legislation, policy formulation, and overall direction setting of the government. This includes the approval of financial policies which establish and direct the operations of the City of Fort Worth (“City”). The City Manager is responsible for carrying out the policy directives of the City Council and managing the day-to-day operations of the executive departments, including the Financial Management Services Department (“FMS”). This policy shall be administered on behalf of the City Manager by the Chief Financial Officer/Director of FMS (“CFO”).

II. Purpose

This policy defines and provides the guiding principles with respect to Revenue Receipting, including the handling of cash, reconciling payments received, and reporting on receipting activity occurring within the City of Fort Worth (“City”). The objectives of this policy are to ensure consistent revenue receipting practices and to safeguard against loss, unauthorized use, or misappropriation of assets. Controls are created to establish, maintain, and enforce a sound system of operational procedures in accordance with industry best practices and internal control objectives. These controls address the decentralized nature of the processes associated with receipting and depositing revenue while also providing standards and minimally acceptable practices for these activities.

III. Applicability and Scope

All employees of the City, including uniformed employees having revenue receipting, cash handling, and payment reconciliation responsibilities shall conduct all related activities in compliance with rules and guidelines set forth by this policy, and by their respective departmental cash handling and reconciliation procedures.

IV. Glossary

See definitions related to this policy provided in the Glossary for Financial Management Policy Statements.
