DETAILED PROJECT DESCRIPTION

Please provide a detailed summary of your proposal below. This should include a detailed description of the proposed use and reason for rezoning, how this use is compatible with surrounding land uses and the City's Comprehensive Plan, and any other details relevant to your request. Feel free to attach additional pages, concept plans, etc. as needed.

For PD or CUP requests, please explain why your proposal cannot be accommodated by standard zoning districts, clarify if any waivers are being requested and why, and detail any changes from previously approved site plans or development standards.

We are requesting a zoning change to allow for the increased density for our proposed +/- 87 unit multifamily development located on 1.602 acres on 3 parcels (TAD account #'s 00487732, 00487945, 00487937). The site is currently undeveloped with heavy floodplain located at the rear of the site that naturally separates this property from the single-family homes on the other side (western) of the said floodplain.

The proposed development will be Class A multifamily consisting of two 4-story buildings with the top 3 stories being multifamily units and the first (ground) floor being parking under the building for a total of 82 units. We are also proposing 5 townhomes for an overall total of 87 units.

Currently, the site is zoned "C" - Medium Density which allows for multifamily use with a max of 24 unit/ac; however, our current site is planned for 87 total units equating to a density 54 units/acre. The site is located in a mixed-use growth center & urban village and is in a transitional area between mixed-use, commercial/business and single-family residences. We are requesting either a zoning change to "UR" Urban Residential or establish a PD that would allow for our proposed multifamily development.

We believe an increased density multifamily development here will be the best use for this property due to (1) Maximizing Land Use Efficiency, (2) Meeting Market Demand, (3) Proximity to Employment/Retail/Commercial Centers, (4) Sustainable and Smart Growth, and (5) Economic Viability. By leveraging the above advantages, this multifamily development makes the most efficient use while meeting the housing needs of the growing Fort Worth population.

The multifamily buildings will be designed and orientated in a manner where the exterior look and appearance will fit /blend in with the surrounding neighborhood. New landscaping will add a refreshing natural feel and the overall development will enhance the neighborhood without detracting from the single-family feel of the area.
