

Kellis Street Water and Sewer Improvements community design meeting

Thursday, May 23, 2024 - 6:30 p.m.

Eugene McCray Community Center, 4932 Wilbarger Street

Agenda

- Introductions
- Project Overview
- Project Area
- Frequently Asked Questions
- Timeline

Your project team includes:

Project Manager: Zak Zakersalehi

- 817-392-8695; Abolfazi.Zakersalehi@FortWorthTexas.gov

Engineering Design Consultant

- HDR Inc. – Amir Tabesh and Maria Contreras

Why are we doing this project?

Fort Worth prioritizes replacing water and sewer lines that have a high risk of failure. Risk of failure is determined based on available data which includes:

- Water main break history
- Leak history
- CCTV (closed circuit TV) inspection
- Age of the line
- Line material
- Lead service lines
- Cast iron lines

What drives this project?

The 8-inch in diameter water line on East Kellis Street is cast iron.

To address frequent main breaks, Fort Worth Water management has committed to replacing a minimum of 20 miles of cast iron pipe every year.

Currently, there are 55 miles of cast iron mains at various stages of design for replacement in fiscal year 2024 and beyond.

What part of Fort Worth does this impact?

This Fort Worth Water capital improvement project is in Fort Worth Council District 11.

Construction will impact the Echo Heights neighborhood association.

The Prairie Dog park is south of this project.

Will you need access to our property during construction?

Construction will be in the streets and easements. If Fort Worth Water needs access to your property we will contact you. If an easement is needed for your property a city land agent will be contacting you soon.

Will sewer service be disrupted?

Sanitary sewer service will not be interrupted. New sewer cleanouts will be installed at the property or easement line. The sewer cleanout provides crews easy access if a backup or blockage occurs.

How will construction impact the businesses on the east side?

When we get to the construction phase, the inspector and the contractor will work with businesses and residences who need driveway access during active construction hours.

Will the city's trash truck pick up my trash and recycling?

If your side of the street is closed on your scheduled trash collection day, the contractor will take your trash and recycling carts to the opposite side of the street so the trash collection vehicle can pick it up.

Will there be lane closures during construction?

Yes.

Signs will be posted to alert motorists.

Timeline

This project is in the design phase. We will have more information after the contractor is approved by the Fort Worth City Council.

We host a pre-construction meeting with the contractor to set the start date for construction and, to create a schedule for the streets that will be impacted.

We will host a community construction meeting before the contractor breaks ground.

Where can I get more information?

- Go to www.FortWorthTexas.gov and type in the project number – 103360 - in the search bar on the home page. Kellis Street - Eastover to Parker Henderson - Water and Sewer will pop up.
- To get project page updates, scroll down to the bottom of the project page and click on “Subscribe to this page.”
- The link to a PDF of this PowerPoint and a link to the YouTube video of this presentation will be posted to this project page.

How do I report an emergency or non-emergency?

Emergencies

- Water main breaks, sewer backups - 24 hours a day
- 817-392-4477, [Select Option 1](#)

Water Call Center (non-emergency)

- 7 am to 7 pm Monday through Friday
- 817-392-4477
- Closed City holidays

Download the MyFW app from the App Store or Google Play. You can report sewer overflows, leaks and water main breaks, missing or broken meter lids, water theft, water violations, no water service, water pressure issues and other sewer concerns.
